Vaccination will protect you and those you love

Vaccination against Covid-19 is thousands of times safer than catching Covid-19.

Even if you do get Covid-19, your chances of getting very sick or dying are much smaller.

Vaccination is **FREE to everyone living in South Africa**

Get vaccinated now!

Calling on men

Men are at
double the risk
of dying from
Covid than
women

But more
women
than men
are getting
vaccinated

COVID-19 vaccines do not cause erectile dysfunction and male infertility, but Covid can!

**Vaccinate now, and protect
yourself and your loved ones**

Let's have a safe and healthy Christmas

The **4th wave** will be with us later this year

We can save 20,000 lives

in South Africa before the end of the year if we all get vaccinated

Let's give ourselves and our families the gift of life and love this Christmas.

Get vaccinated now to protect yourself and your family

Vaccines work

Vaccination significantly reduces transmission of the virus

Vaccinated people are far less likely to become seriously ill as a result of Covid

Most importantly, the vaccination prevents hospitalisation and deaths
