

RBPLAT VACCINATION CLINIC  
WILL NOW ADMINISTER THE  
**J&J VACCINE**  
TO EMPLOYEES VACCINATING  
FOR THE FIRST TIME

## JOHNSON & JOHNSON VACCINE

- From Monday, 16 July, the J&J vaccine will be administered to employees getting the vaccine for the first time at the RBPlat Vaccination Clinic
- Platinum Health has been able to source the J&J vaccine from government
- J & J is a single dose vaccine – no need for repeat visit.

## PFIZER VACCINE

- Since 16 July 2021, 2 410 of our employees have been vaccinated with the first dose of the Pfizer vaccine at our Clinic
- These employees will need to visit the Clinic on their scheduled date for their second dose of the vaccine, as Pfizer is a two-dose vaccine.

## VACCINES ARE SAFE!

- Vaccines are a simple, safe, and effective way to protect people against harmful diseases
- They use your body's natural defences to build resistance to specific infections
- They make your immune system stronger
- Approved by the South African Health Products Regulatory Authority (SAHPRA)
- Rigorous, multi-stage testing processes to ensure their safety
- Pfizer and the J&J vaccines have both shown similar effectiveness against COVID-19 and chances of hospitalisation or death are significantly reduced.

*Please contact your HR Coordinator for more information on the RBPlat vaccination programme.*
